Project Sunrise Airborne

 hehehe, TW

Earlier in June, Qantas announced the release date of project sunrise - the flight supposed to connect London and Sydney in one 21 hour flight. After much anticipation of the new A350-1000ULR but also the new first class suite! The flight is supposed to have its first takeoff in around October 2027. In this route Qantas takes aviation as a whole to a completely new level, with an extended range and upgraded cabins and an astonishing 20,000 more liters of fuel than the regular A350. Project Sunrise will be the longest commercial aviation route by far, beating the old record held by Singapore Airlines by an astonishing 2000 kilometers - for reference 2000 kilometers is like walking from the bottom of England to the top of Scotland! Have you ever flown Qantas?

ACA 10K and New Partners

 hehehe, TW

Air Canda PTFS has reached 10,000 members in their discord server! That is an incredible milestone and they are the only the third airline in PTC history to get there. First the official PTC server, then PRG and now Air Canada! Incredibly our own Trainee Anchor has secured an interview with the man himself, GAMO! Watch out for this new post on our youtube channel soon!

PNN Has also secured partnerships with some of the most recognised airlines in the PTC community, those airlines are Qatar Airways PTFS and American Airlines PTFS!
